

# Making the office wherever you need it to be

Is your business looking for intuitive and flexible communications tools to help your employees work remotely? What is your new business as normal? All at home? All in the office? Half and half?

Be flexible with all your business communications and IT

Let us build your business a flexible communications infrastructure, so you can change how and where you work at a moment's notice.

Your clients, suppliers and other businesses won't even notice.

## MOBILE COMMUNICATIONS

- Unlimited tariffs
- Contract lengths to fit your needs
- Co-terminus contracts
- Zero-touch deployment
- Mobile security

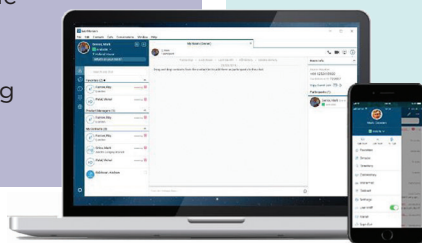

## IT SERVICES

- Secure cloud storage and back-up instead of onsite servers
- Office 365 to access Microsoft solutions anywhere
- The right connected device to do the job wherever you are

## CLOUD TELEPHONE SYSTEMS

- Your landline number wherever you are
- Phone apps for your laptop and mobile
- Video conferencing
- Web collaboration and content sharing
- Presence and instant messaging

## CYBER SECURITY FOR IT AND MOBILES

- Anti-virus, anti-malware and firewalls
- Your business communications are secure in the office, at home or out on the road
